## Actors in Coastal Governance

Contact: Assoc Prof Laura Stocker, Curtin University Sustainability Policy Institute, [L.Stocker@curtin.edu.au](mailto:L.Stocker@curtin.edu.au)

Coastal governance includes all the processes and institutional arrangements through which ‘actors’ (decision makers and stakeholders) influence outcomes on the coast. Diverse actors play a role, formally or informally, in coastal governance. Actors do not function alone but in existing networks and in legal, policy, political, social, technological, economic and cultural contexts. Actors can collaborate with each other to share power and available resources, such as knowledge and funds. They can also work against each other to pursue competing coastal objectives. Below is a list of actors in coastal governance that can be used: in conjunction with the social network analysis tool; as a starting point for deciding on workshop participants; or for determining key respondents in a consultation process.

### Council of Australian Governments

#### Federal and State parliament, cabinet and ministers

#### Federal agencies

- o Environment

#### State agencies

- o Planning
- o Infrastructure
- o Environment
- o Conservation
- o Sustainability

#### Local governments

#### Research organisations

- o IPCC (International Panel on Climate Change)
- o CSIRO (including Wealth from Oceans and Climate Adaptation Flagships)
- o IOCI (Indian Ocean Climate Initiative)
- o NCCARF (National Climate Change Adaptation Research Facility)
- o Universities

#### General public

#### NGOs

- o Coastal advocacy groups – e.g., National Seachange Taskforce, Australian Coastal Society
- o Industry groups – e.g., Insurance Council of Australia
- o Professional organisations – e.g., Urban Development Institute of Australia

#### Formal organisations

- o Advisory councils, e.g., Climate Council
- o NRM groups
- o Local government associations
- o Aboriginal Land and Sea Councils

#### Market

- o Developers
- o Financiers
- o Insurers
- o Media

#### Informal networks

- o Social networks
- o Social media
- o Influential individuals

The CSIRO Flagship Collaboration Fund facilitates involvement of the wider Australian research community in addressing the nation's most significant challenges and opportunities. Flagship Clusters are three-year partnerships between Flagships, universities and other public research agencies.
